OCTOBER HEALTH EDUCATION AND WELLNESS PROGRAM—SLEEP HEALTH: We spend one-third of our lives sleeping and feel lousy when we don't get enough rest. Most people take sleep for granted and pay little attention to it unless sleep problems arise. October's packet will look at what sleep is and its different stages. Circadian rhythms, dreams, naps, sleep requirements, effects on the body and mind and sleep disorders are presented. Recommendations for ideal sleep are included. Packets are available at all medical facilities in October and upon request to Carol Roth, 867-3414, CHS-005, e-mail **Roth-1 Carol**. (JJ-C)

SEPTEMBER HEALTH EDUCATION & WELLNESS PROGRAM—INFECTIOUS DISEASES: Infectious disease still remains a serious problem, even with all our modern medical discoveries, technology and advances. Some are just annoying, such as the common cold, while others are deadly, like AIDS. New microbes are evolving and older ones are mutating, making even the most powerful antibiotics and vaccines less effective. September's packet will look at viruses and bacteria, how infectious diseases are contracted and spread, antibiotic resistance, how our immune system fights these diseases, immunization schedules and what you can do to protect yourself from infectious diseases. Packets will be available at all medical facilities in September and upon request to Carol Roth, 867-3414. CHS-005, email **Roth-1, Carol**. (JJ-C)

NUTRITION TIP OF THE WEEK—FROM THE KSC FITNESS CENTERS: Cooking food at improper temperatures is one of the leading causes of foodborne illness at home. A good way to reduce your risk is to buy and use a meat thermometer. Using a meat thermometer to measure internal temperatures of meats and casseroles is the most reliable way to ensure food is cooked safely. At 160 degrees Fahrenheit or above, harmful bacteria is destroyed. Remember, bacteria grows rapidly between 40 and 140 degrees Fahrenheit, so use a meat thermometer and cook your food to the proper temperature. (JJ-C)

KSC FITNESS CENTERS'—LUNCH AND LEARN: "Fitting the Pyramid into Your Life," September 24, in the OSB, Room 3316. Summer's over but you still need to watch what you eat! Bring your lunch and learn how to create healthy meals utilizing the Food Guide Pyramid. Call 867-7829 to sign up. (JJ-C)

INFLUENZA IMMUNIZATIONS: The influenza season in Florida will be here in the next few months. You can be protected from the most likely causes of epidemic flu by being vaccinated. Influenza immunization is especially important to those people with known heart, lung, or kidney problems, diabetes, anemia or a reduced body resistance to infection. The 1999-2000 schedule at the KSC/CCAS clinics begins September 20, 1999, as follows:

Monday through Friday	7:00 a.m. - 4:30 p.m.	Occupational Health Facility (KSC Industrial Area)
Monday through Friday	7:00 a.m. - 3:00 p.m.	Cape Area Clinic (CCAS Industrial Area)
24 hours/day, 7 days/week		Launch Area Clinic (KSC LC-39 Area, MFF Facility) (JJ-C)
